

The 2023 **Golf R**

The 2023 Golf R

An unmatched hatch

Don't be fooled by its refined exterior. The 2023 Golf R is the purest expression of what a German-engineered hot hatch should be: performance and precision in perfect balance.

With **Dynamic Chassis Control**, the touch of a button lets you select just how aggressive and responsive you want Golf R to feel. Choose Comfort mode for a more casual drive, or switch to Race to unleash the full potential of Golf R.¹ And with track-specific settings like Drift Mode and the Nürburgring-inspired Special Mode, this Golf R truly is a wolf in sheep's clothing.

The 2023 Golf R packs a serious punch with 315 hp, up to 295 lb-ft of torque, and acceleration from 0-100 km/h in just 4.7 seconds.² And because all that power is nothing without control, this surefooted Golf R features standard **4MOTION® All-Wheel Drive with Torque Vectoring** plus a standard 6-speed manual transmission or the lightning-quick available 7-speed DSG® Transmission to put you in complete command, from the corners to the straightaways.

¹ Please drive safely and obey all local traffic laws, including speed limits.
² When equipped with the 7-speed DSG® Transmission. Please drive safely and obey all local traffic laws, including speed limits.
³ Driver assistance feature. Drivers must continue to perform manual checks and pay full attention to the road and safe driving at all times. See owner's manual for important information and feature limitations.

Top-notch tech

Golf R also takes the pole position in terms of top-notch tech. The **Head-Up Display (HUD)** puts the most important information at eye level, so your focus stays fixed on the road ahead. And with 30 colours of customizable **Interior Ambient Lighting**, you can adjust every detail of the Golf R, inside and out. In the Golf R, technology and safety always go hand in hand, thanks to a full suite of active safety features including **Travel Assist** that combines Lane Assist and Adaptive Cruise Control, and **Front Assist with Autonomous Emergency Braking** which act as an extra set of eyes, and a quicker set of brakes to help prevent accidents.³

Plus, brand new for 2023 is the **20th Anniversary Edition Golf R**. A showstopping limited run of vehicles featuring 19-inch Estoril alloy wheels in dramatic black, with Carbon Fibre accents and special 20th anniversary badging throughout. This is a Golf R twenty years in the making.
